The Oxford Handbook of Continental Philosophy is a guide to the major themes of the continental European tradition in philosophy in the nineteenth and twentieth centuries. The contributors, who are all leading figures in the field, provide a thematic treatment of continental philosophy, treating its subject matter philosophically and not simply as a series of museum pieces from the history of ideas. The scope of the volume is broad, with discussions covering a wide range of philosophical movements including German Idealism, existentialism, phenomenology, Marxism, postmodernism, and critical theory. He is the author of two books on Heidegger, a book on Sartre, and numerous articles in critical philosophy of race and continental philosophy. Lawrence Blum is Professor of Philosophy and Distinguished Professor of Liberal Arts and Education at the University of Massachusetts, Boston. He specializes in race studies, philosophy of education, and moral philosophy. Donate this book to the Internet Archive library. —Close. Hooray!
