In Creative Capital, Spencer Ante tells the compelling story of the enigmatic and quirky man—Georges Doriot—who created the venture capital industry. The author traces the pivotal events in Doriot's life, including his experience as a decorated brigadier general during World War II; as a maverick professor at Harvard Business School; and as the architect and founder of the first venture capital firm, American Research and Development. O'Reilly members experience live online training, plus books, videos, and digital content from 200+ publishers.

Berlin, a city without a centre, a puzzle and a constantly evolving capital, is surprising to the visitor and interesting to the geographer. Tired of the strange image conveyed by a city that symbolises the turmoil of the 20th century, the public authorities seem determined to «correct the city» and make it the respected capital of reunified Germany. From a historical perspective, this article takes a critical view of the new Berlin, characterised by monumentalism and uniformity. Read more. Article.
