The book is structured in 3 steps as a guide to living a purposeful life and includes exercises and strategies to help readers maintain their progress.
A review of *The Greeks and Greek Love: a Radical Reappraisal of Homosexuality in Ancient Greece* by James Davidson, 2007. Topical propaganda posing as history *. This is as bad as a so-called history book can get. For a generation now, devotees of ancient Greek culture have had to grind their teeth while modern gays of the semi-educated variety have laid bogus claim to being its heirs, consoling themselves that surely no academic would ever stoop to lending them his authority. Now one has done just that. 2007 edition. Everyone with a rudimentary knowledge of Greek history has always known this claim to be false. The standard references on ancient Greek sexuality remain the studies by Kenneth Dover, David Halperin, and John Winkler. 3. The standard reference on ancient Roman sexuality remains the one by Craig Williams. That's just the way it is, for those interested. I gather from the ‘blurb’ that this is supposed to be a ‘radical reappraisal’ of the subject. Does radical reappraisal mean one now has to jettison basic communicative skills as well? Was homosexuality in the ancient world more accepted than contemporary academic understanding credits it with being? Less? The Greek construction of male sexuality has fascinated scholars since the 19th century and before, and it was recognised that the subject was complex. Among the Greeks homosexuality was common, especially in the military. Some have argued that homosexuality may have been the norm for both men and women and heterosexual sex was primarily just to have babies. Sexual contact occurred among males in the bath houses. Homosexuality and athleticism were said to have gone hand in hand in ancient Greece. Ron Grossman wrote in Chicago Tribune, “Far from finding homosexuality and athleticism mutually exclusive, they considered gay sex an excellent training regimen and an inspiration for military valor.” Plato said, “If there were only some way of contriving that a state or an army should be made of lovers they would overcome the world.”
