While the Grand Canyon is undeniably the most awe-inspiring natural attraction in the state, northern Arizona contains other worthwhile (and less crowded) attractions. Only 60 miles south of the great chasm stand the San Francisco Peaks, ancient volcanoes sacred to the Hopi and Navajo as the home of spirits that bring rain to the parched desert below. Plan your trip to the Grand Canyon with the help of this highly-detailed guide. You'll find all the best locations to photograph and plenty of tips. Two of the main reasons why it is so important to plan are the massive size of the canyon and its surrounding areas, and the seasonal changes that take place in this area of Arizona. The canyon itself is 277 miles long and up to 18 miles wide. Much of the area around the canyon is a part of Grand Canyon National Park. Many of the popular locations at and around the Grand Canyon are quite spread out, and driving from one area to another (such as the north rim to the south rim) can take a considerable amount of time. With this in mind, you will want to know exactly what spots and locations are most Grand Canyon Guide Books & Field Guides. 17) Grand Canyon: The Complete Guide | By James Kaiser.
