
From The Woman Source Catalog & Review: Tools for Connecting the Community for Women; review by Ilene Rosoff

Does the idea of not having to cook meals for yourself or family every night, deal with traffic on your block, or worry when your children are out playing in the neighborhood appeal to you? Through more than 250 full-color photographs, this essential book reveals how today's architects are able to adapt to the necessities of a more affordable budget when approaching the always exciting necessity of designing a home. The book explains the history of this housing approach, shares experiences of both success and failure in establishing a co-housing community, and provides helpful guidance based on actual experience. Of note is the emphasis on community, and the experience that a successful co-housing community requires the resident's participation from the initial conception of the project. Based on my experiences with commercial real estate, I conclude that this aspect of co-housing (getting multiple people to work together as a community) is the most difficult aspect of a successful co-housing development.
