An excellent overview of fantasy and science fiction literature involving dinosaurs, from the very first in the end of the 19th century, to today's thrillers. Many obscure works of fiction are given long-needed attention, and this comprehensive look is a must for anyone interested in dinosaurs and fiction narratives. With the work of the late Michael Crichton and its spinoffs as the codifiers for today's image of dinosaurs, it's a real treat to see these fascinating creatures in the works of a potpourri of science fiction masters. This is an Urgent Heads Up for anyone who has bought books from All ...Romance - there is a banner headline on their site which says 'They are closing their doors at midnight (their time) on 31st December', so if you've got a bookshelf/library with them, you only have until then to back it up. After that, it will cease to exist.Â Tears for Her Dragon by Julia Mills is part of the exciting SHIFTERS HALLOWS EVE anthology which will be live on Oct 25th! This is a list of science-fiction novels, novel series, and collections of linked short stories. It includes modern novels, as well as novels written before the term "science fiction" was in common use. This list includes novels not marketed as SF but still considered to be substantially science fiction in content by some critics, such as Nineteen Eighty Four. As such, it is an inclusive list, not an exclusive list based on other factors such as level of notability or literary quality. Books are
