Dear Heavenly Father, I ask that You please help me lift this burden that’s been weighing on my life. Please help me get away from negative energy in the name of Jesus. Please keep me in Your daily prayers. I pray that You would give me strength and do all things by glorifying You. You are aware of the struggles that I will face today, and even the challenges I will be faced with tomorrow. Prayer is communication with God, and daily prayers simply means daily communication with God. As a believer, in order to find true success in life, you must be constantly in tune with your maker. God has the blueprints of our life, He knows our end from the beginning, therefore we must be constantly connected to Him through our Lord Jesus Christ, in order to succeed in life. Jesus speaking in John 15:5-9, He said that He is the Vine and we are the branches, in order for the branches to bear fruits, they must be attached to the vine, the moment they are detached, they cannot be fruit bearing.
