IF YOU READ one grim, soul-sucking novel this holiday season, make it The Road, Cormac McCarthy's unrelentingly bleak vision of a post-holocaust world where the question of human existence seems to be summed up in the question "How many doomed souls can writhe on the end of a pin?" Answer: Twoâ€”until the last few pages, when the answer becomes One. The bare bo Salon Fantastique is a collection of fifteen original fantasy stories written by some of the greats in today's fantasy field and edited by esteemed editors Ellen Datlow and Terri Windling. It has an eclectic mix of stories, though most of them take place on our own planet, rather than some other fantasy setting. The styles are varied and the authors have written some very good stuff. The stories seem to fit the title of the anthology (which is always a good thing), as all of them seem a bit more sophisticated than your average fantasy story. I could almost picture these stories being pass
