Morton Allport Memorial Fund (1879)

The sum of £200 was raised by special subscription as a memorial to Morton Allport, a generous donor of collections to the Museum and a contributor of numerous papers, who also took an active interest in the introduction of salmon and other trout. The income accruing from the Memorial Fund is applied to the purchase of scientific books.

R. M. Johnston Memorial Fund (1920)

The sum of £230 was subscribed as a memorial to R. M. Johnston, Government Statistician, a member of the Society from 1883 till his death in 1918, and a Member of the Council and Vice-President for many years. During that time he contributed 103 papers, the subjects embracing statistics, geology, botany, zoology, and palaeontology. He will be remembered not only by students of social and economic science, but also by those interested in Tasmanian geology.

The Memorial Fund provides for (1) Lecture, (2) Medal to be presented to the lecturer, and (3) Purchase of books.

Medals presented—
1934. Professor W. J. Dakin, D.Sc., Professor of Zoology, University of Sydney.

Clive Lord Memorial Fund (1934)

The fund of £200 was raised by special subscription as a memorial to Clive E. Lord, Secretary and Librarian of the Society and Director of the Tasmanian Museum and Art Gallery, 1918-1933.

The fund provides for (1) A Memorial Lecture and a Medal and (2) A Prize. The lecture shall deal with some aspect of Tasmanian History or Tasmanian Natural Science.

The Royal Society of Tasmania (RST) was formed in 1843. The Society was founded in 1843 by Sir John Eardley-Wilmot, Lieutenant Governor, as the Botanical and Horticultural Society of Van Diemen's Land. Its aim was to "develop the physical character of the Island and illustrate its natural history and productions." Queen Victoria became Patron in 1844 and the name was changed to The Royal Society of Tasmania of Van Diemen's Land for Horticulture, Botany and the Advancement of Science. Under the current relevant Act of Parliament, passed in 1911, the name was shortened to The Royal Society of Tasmania. A branch of the Society was formed in Launceston. The present paper is planned to be the first of a series written for the Royal Society of Tasmania, dealing with the Trout-food Insects of that State. As the Order Plectoptera, or Mayflies, is the most important order of insects considered as trout-food, I propose to deal with them first, leaving the other aquatic orders for later treatment.
